

## 13. Conclusion

**I**n 2007 the Commission realised two major accomplishments: the finalization of the Draft Environmental Commission Rules, 2007 and the Commission's Strategic Plan 2007 - 2010. The Draft Rules are a realization of some of the strategies set out in the Strategic Plan geared towards improving access to justice in the Environmental Commission. Both reflect that ultimately the focus of the Commission in 2007 was on fulfilling the needs of the members of society it serves. The Chairman, Members, Registrar and staff of the Commission remain confident in the way forward they have charted and look forward to continuing their partnership with its external stakeholders in seeking "Environmental Justice for All."
